

## Instructions

Cut out. Use the dotted lines to make cutting easier. Cut along the sides of the centre box, then fold the box down along the middle line. Fold along the corner lines. These two little darts need to fold inwards so when the design is closed it looks like you've cut off the corners. Fold along the other dark lines on the other pieces. Attach both parts of the characters together lining up the image. Add a little glue to the arm either side of the fold and glue onto the darts. Only glue onto one half of the dart. Lastly glue your entire creation to the backing piece. If you have extra time you can add some background onto your design.

Knowing Jesus changes people...

sometimes in ways we can see  
sometimes in the way we think.
