

**You'll need:**

Scissors, glue or tape, string and colouring pens.

**Instructions**

Choose if you want to do coloured or colour your own.

Cut out the shape.

Fold the side flaps behind the image.

Attach the blue circle using glue or tape to form a tube.

Thread a loop of string through the tube and hook the top around something solid.

Gently pull each side of the string to walk your 'David' up the water shaft.
